FALL CULTURAL VISITS

MARÍA LUISA PARK

In 1893 María Luisa, the Duchess of Montpensier, donated part of her private gardens to the city of Seville for use as a public park. With the Ibero-American World Fair in 1929 and the construction of The Plaza de España and Plaza de América the park became one of Seville's most important tourist references.

ANCIENT ROMAN CITY OF ITÁLICA

The city of Itálica, located in the outskirts of Seville, was the birthplace of the Roman emperors Trajan and Hadrian. Founded in 206 BC, it was one of the earliest Roman settlements in Spain. There are remarkable mosaics, an impressive amphitheater and archeological remains that give more than a glimpse of life during the Roman Empire.

THE FINE ARTS MUSEUM

Considered the most important art museum of Spain after El Prado, this beautiful 16th Century former convent houses Spanish visual arts from the medieval period to the early 20th Century, including a choice selection of works by artists from the so-called Golden Age of Sevillian painting during the 17th Century.

THE ALCÁZAR PALACE

The Alcázar was built by Castilian Christians on the site of a Muslim residential fortress. It is a preeminent example of Mudéjar architecture in the Iberian Peninsula and is universally renowned as one of the most beautiful. It is also the oldest royal palace still in use in Europe.

THE GOTHIC CATHEDRAL

After its completion in the early 16th Century, the Seville Cathedral became the largest Gothic church in the world. Built on the site of the former Muslim Great Mosque, it houses most impressive works of sacred art and magnificent architectural elements.
